

## TABLE OF CONTENTS

### CHAPTER 1 UNITED STATES AVIATION AND THE INTERNATIONAL CIVIL AVIATION ORGANIZATION

	Page
1. Background .....	1-1
2. ICAO and the ICAO Annexes .....	1-1
a. ICAO Objectives .....	1-1
b. Obligations of Member States .....	1-2
c. Organizational Structure .....	1-3
d. ICAO Publications .....	1-4
e. Annexes to the Convention .....	1-5
3. ICAO Regional Plans and Aeronautical Information Publications .....	1-7
a. Regional Planning .....	1-7
b. Air Navigation Plans .....	1-7
c. Aeronautical Information Publications (AIP) .....	1-7
4. U.S. Public Law, International Agreements, and Standards Related to Air Navigation .....	1-7
a. The Federal Aviation Act of 1958, As Amended (The FA Act) .....	1-7
b. Protection of Persons and Property .....	1-8
c. Equipment Redundancy .....	1-8
d. Relationship Between the FAR, ICAO SARP, and National Regulations .....	1-8

### CHAPTER 2 OCEANIC OPERATIONS FOR ALL AIRCRAFT IN ALL GEOGRAPHIC AREAS

1. Introduction .....	2-1
a. Legal Basis for International Operations .....	2-1
b. Information Sources .....	2-1
c. Precautions .....	2-1
2. Federal Aviation Regulations Pertinent to International Operations .....	2-2
3. Planning .....	2-4
a. Preflight Considerations .....	2-4
b. Itinerary Preparation .....	2-5
c. The International Notice to Airmen (IN) .....	2-6
d. International Flight Plans .....	2-7
e. Operation Reservations for High Density Traffic Airports (HDTA) .....	2-7
f. Civilian Use of U.S. Military Fields .....	2-8
g. Cabotage .....	2-8

## TABLE OF CONTENTS—Continued

	<i>Page</i>
h. Flight Planning Firms and Ground Handling Agents .....	2-9
i. Journey Logbooks .....	2-9
j. Significant Sections of the Chicago Convention .....	2-9
<b>4. Documentation .....</b>	<b>2-9</b>
a. Personal Documentation Requirements .....	2-9
b. Passports .....	2-10
c. Lost or Damaged Passports .....	2-11
d. Visas .....	2-11
e. Aircraft Document Requirements .....	2-11
<b>5. Equipment .....</b>	<b>2-13</b>
a. ICAO Requirements .....	2-13
b. Oceanic Use of Traffic Alert and Collision Avoidance Systems (TCAS) .....	2-14
c. Flight Recorders .....	2-14
d. Flight Recorder Requirements .....	2-14
e. Cockpit Voice Recorders .....	2-15
f. Equipment Required for All Airplanes on Overwater Flights .....	2-15
g. Weight and Balance Control for FAR Part 121 Operations .....	2-17
h. Navigation Equipment .....	2-17
i. Specific Equipment Requirements .....	2-17
j. Legal Interpretation of the Statement, "Appropriate to the Facility to be Used" .....	2-17
k. Survival Equipment .....	2-18
<b>6. Air Traffic Control .....</b>	<b>2-20</b>
a. Oceanic Position Reporting .....	2-20
b. Flight Planning .....	2-20
c. Navigation/Communication Equipment .....	2-21
d. Position Reporting .....	2-21
e. ATC Service .....	2-22
f. Warning Areas .....	2-23
g. Altimeter Settings .....	2-23
h. Reporting of Operational and Meteorological Information .....	2-24
i. National Security .....	2-24
j. Aircraft Position Tolerances .....	2-25
k. Special Security Instructions .....	2-25
l. International Interception Procedures .....	2-26
m. Intercept Pattern for Identification of Transport Aircraft .....	2-26
<b>7. Oceanic Communications .....</b>	<b>2-27</b>
a. Guard Station .....	2-27
b. Use of VHF and HF of Communications .....	2-28
c. Guard of VHF Emergency Frequency .....	2-28
d. U.S. Aeronautical Telecommunications Services .....	2-28

## TABLE OF CONTENTS—Continued

	<i>Page</i>
e. Selcal Facilities .....	2-30
f. Selcal Procedures .....	2-30
g. Standard Air-Ground Message Types and Formats .....	2-30
h. Methods of Obtaining Oceanic Clearances .....	2-32
i. Summary of Communication and Reporting Procedures .....	2-32
j. Transponder .....	2-32
k. Emergency Frequencies .....	2-32
<b>8. Navigation Procedures .....</b>	<b>2-33</b>
a. Flight Logs .....	2-33
b. Position Plotting .....	2-33
c. Relief Crewmembers .....	2-34
d. System Alignment .....	2-34
e. Initial Insertion of Latitude and Longitude .....	2-34
f. Loading of Initial Waypoints .....	2-35
g. Flight Plan Check .....	2-35
h. Leaving the Ramp .....	2-36
i. In-Flight .....	2-36
j. Approaching the Ocean .....	2-36
k. Oceanic Boundary Position Report .....	2-36
l. At an Oceanic Waypoint .....	2-36
m. Routine Monitoring .....	2-37
n. Use of Radar .....	2-37
o. Approaching Landfall .....	2-37
p. Navigation System Accuracy Check .....	2-37
q. Monitoring During Distractions .....	2-37
r. Avoiding Confusion Between Magnetic and True .....	2-37
s. Navigation in Areas of Magnetic Unreliability .....	2-38
t. Deliberate Deviations .....	2-38
u. ATC Reclearance .....	2-39
v. Detecting Failures .....	2-39
w. Identifying Faulty Systems .....	2-39
x. When Faulty Systems Cannot be Identified .....	2-40
y. What Constitutes a Failed System .....	2-40
z. Loss of Navigation Capability .....	2-40
<b>9. Operations .....</b>	<b>2-41</b>
a. Overview .....	2-41
b. U.S.-Registered Aircraft .....	2-41
<b>10. Extended-Range Operations with Two-Engine Airplanes (ETOPS) .....</b>	<b>2-41</b>
<b>11. Emergency Procedures .....</b>	<b>2-42</b>
a. Introduction .....	2-42
b. Pilot Procedures .....	2-42

## TABLE OF CONTENTS—Continued

	<i>Page</i>
c. Two-Way Radio Failure .....	2-43
d. The Four C's .....	2-43
e. Search and Rescue .....	2-43
f. Crashed Aircraft .....	2-44
g. Crash Landing Survival and Rescue .....	2-44
h. Ditching and Evacuation .....	2-44
i. International Procedures .....	2-44
j. Evacuation .....	2-45
k. Liferafts .....	2-45
l. Signaling .....	2-45
m. Survival .....	2-46
n. Pyrotechnic Signaling Devices .....	2-46
<b>12. Monitoring of Navigation Systems Performance .....</b>	<b>2-47</b>
a. The Monitoring Process .....	2-47
b. Monitoring by the Operators .....	2-48
c. Monitoring of the Operator by the State .....	2-49
d. Direct Action by the State in the Monitoring Process .....	2-49

### CHAPTER 3 NORTH ATLANTIC OPERATIONS

<b>1. Characteristics of the Airspace .....</b>	<b>3-1</b>
a. Introduction .....	3-1
b. MNPS Airspace .....	3-1
c. RVSM Airspace .....	3-2
d. Characteristics of the Traffic .....	3-2
e. Provider States .....	3-2
f. Pilot Qualification Requirements .....	3-2
g. Regulatory Requirements for NAT Flights .....	3-2
h. Flight Rules Over the High Seas .....	3-3
i. Operating Requirements .....	3-4
j. Navigation Equipment and Procedures .....	3-8
k. Sources of Navigation Errors .....	3-8
<b>2. State Responsibility .....</b>	<b>3-9</b>
<b>3. Purpose and Concepts of MNPS .....</b>	<b>3-9</b>
a. NAT MNPS .....	3-10
b. Application of MNPS .....	3-10
c. General Route Structure .....	3-11
d. Organized Track System .....	3-11
e. Other Routes and Route Structures Within or Adjacent to the NAT MNPS .....	3-12
f. Routes for Aircraft with Only One Long-Range Navigation System .....	3-14
g. Routes for Aircraft with Short-Range Navigation Equipment. ....	3-16

## TABLE OF CONTENTS—Continued

	<i>Page</i>
h. Procedures for Aircraft Suffering Partial Loss of Navigational Capability Before Entry into MNPS Airspace .....	3-16
i. Special Provisions for Aircraft Not Equipped for Operation in MNPS Airspace to Climb or Descend Through MNPS Airspace .....	3-16
<b>4. Operational Approval to Fly in MNPS and/or RVSM Airspace .....</b>	<b>3-17</b>
a. Methods of Approval .....	3-17
b. Installation Approvals .....	3-18
c. Acceptable Means of Compliance .....	3-24
d. Navigation Requirements .....	3-24
e. INS, Inertial Sensor System (ISS), IRS, and Flight Management Control System (FMCS) Equipment .....	3-24
f. Omega Navigation Systems (ONS) .....	3-25
g. Loran-C Equipment .....	3-25
h. Doppler Equipment .....	3-25
i. GPS .....	3-25
j. Summary .....	3-25
<b>5. RVSM - Additional Considerations for Approval .....</b>	<b>3-25</b>
a. General .....	3-25
b. Approval of Aircraft .....	3-25
c. Operational Approval .....	3-26
d. Preapplication Meeting .....	3-26
e. Content of Operator RVSM Application .....	3-26
f. Application Form .....	3-26
g. Airworthiness Documents .....	3-26
h. Description of Aircraft Equipment .....	3-26
i. Training Programs and Operating Practices and Procedures .....	3-26
j. Contingency Procedures After Entering RVSM Airspace .....	3-28
k. Flightcrew Training .....	3-29
<b>6. Specific Contingency Procedures for the NAT Airspace .....</b>	<b>3-29</b>
a. Background .....	3-29
<b>7. The Monitoring Process in the NAT Region .....</b>	<b>3-29</b>
a. Introduction .....	3-29
b. Central Monitoring Agency (CMA) .....	3-30
c. Deviations From Track .....	3-30
d. Followup of Observed and Reported Deviations .....	3-31
e. Additional Reports to CMA .....	3-32
f. Further Followup by Operator and/or State .....	3-32
<b>8. Aircraft Equipment and In-Flight Operating Procedures in MNPS Airspace .....</b>	<b>3-38</b>
a. Introduction .....	3-38
b. Cockpit Layout and Equipment Installation .....	3-38

## TABLE OF CONTENTS—Continued

	<i>Page</i>
c. Training .....	3-39
d. Great Circle Routes .....	3-39
<b>9. Operation Outside MNPS Airspace .....</b>	<b>3-39</b>
a. Introduction .....	3-39
b. The NAT Operational Environment .....	3-40
c. Flight Preparation .....	3-40
d. Equipment Requirements .....	3-40
e. Communication Requirements .....	3-40
f. Special Requirements for Flights Transiting Greenland .....	3-40
g. Special Requirements for Flights Transiting Iceland .....	3-40
<b>10. Temporary Airspace Reservations .....</b>	<b>3-41</b>
a. Introduction .....	3-41
b. Management of Temporary Airspace Reservations .....	3-42
<b>11. Formation Flying by State Aircraft in the NAT Region .....</b>	<b>3-42</b>
a. Definition of Formation Flight .....	3-42
b. Provisions .....	3-43
<b>12. Special Notice—Common Procedures for Radio Communications Failure .....</b>	<b>3-43</b>
a. General .....	3-43
b. Communications Failure Prior to Entering NAT Oceanic Airspace .....	3-43
c. Communications Failure Prior to Exiting NAT Oceanic Airspace .....	3-43

### CHAPTER 4 NORTHERN PACIFIC OPERATIONS

<b>1. The NOPAC System .....</b>	<b>4-1</b>
a. General .....	4-1
b. Composite Route System .....	4-1
c. Oceanic Transition Routes .....	4-2
<b>2. General Procedures .....</b>	<b>4-3</b>
a. Climb Times .....	4-3
b. VFR Climbs .....	4-4
c. Peak Traffic Constraints .....	4-4
<b>3. Flight Plans and Preferred Routes .....</b>	<b>4-4</b>
a. Flight Plans .....	4-4
b. Preferred Routes .....	4-4
<b>4. Communications and Position Reporting .....</b>	<b>4-5</b>
a. High Frequency (HF) Communications .....	4-5
b. Guard Station .....	4-5
c. Air-to-Ground Very High Frequency (VHF) Communication .....	4-6

## TABLE OF CONTENTS—Continued

	Page
d. Air-to-Air VHF Communication .....	4-6
e. Time and Position Reports .....	4-6
f. Special Reporting Procedures .....	4-7
g. Transponder Codes .....	4-7
5. Mach Number Technique .....	4-7
a. Background .....	4-7
b. Application Procedures .....	4-7
6. In-Flight Contingencies .....	4-8
a. General .....	4-8
b. Basic Procedures .....	4-8

### CHAPTER 5 SOUTHERN PACIFIC OCEANIC OPERATIONS

1. Central East Pacific (CEPAC) Composite Airspace .....	5-1
2. Central Pacific Area (CENPAC) .....	5-1
3. Tokyo - Honolulu Flexible Track System .....	5-1
4. Communications and Position Reporting .....	5-1
a. Communications .....	5-1
b. Frequency Monitoring .....	5-1
5. Mach Number Technique .....	5-2
6. In-Flight Contingencies .....	5-2
a. General .....	5-2
b. Basic Procedures .....	5-2

### CHAPTER 6 CARIBBEAN OPERATIONS EXCLUSIVE OF THE GULF OF MEXICO

1. General Information .....	6-1
a. International Flight Information Manual (IFIM) .....	6-1
b. Disease Control .....	6-1
c. Passports .....	6-1
d. Altimeter Settings .....	6-2
2. Bahamas .....	6-2
a. Aircraft Entry Requirements .....	6-2
b. Special Notices .....	6-2
3. Cuba .....	6-2
a. Personal Entry Requirements .....	6-2
b. Aircraft Entry Requirements .....	6-2

## TABLE OF CONTENTS—Continued

	<i>Page</i>
c. Special Notices .....	6-3
d. Legal Considerations .....	6-4
<b>4. South Florida Departures .....</b>	<b>6-4</b>
a. Special Airspace Considerations .....	6-4
b. National Parks, Wildlife Refuges, and Bird Activity .....	6-4
c. Special Use Airspace and Military Activity .....	6-5
d. Key West Naval Air Station .....	6-5
e. Restricted Area R-2916 .....	6-5

### CHAPTER 7 GULF OF MEXICO OPERATIONS

<b>1. Characteristics of the Airspace .....</b>	<b>7-1</b>
a. General .....	7-1
b. Control of Air Traffic .....	7-1
c. Flight Plans .....	7-1
d. Alert Areas .....	7-2
e. Controlled Firing Areas .....	7-2
f. Key West International Airport .....	7-2
g. Noise-Sensitive Areas .....	7-2
h. Warning Areas .....	7-2
i. Restricted Areas .....	7-2
<b>2. Navigation and Communications in the Gulf of Mexico .....</b>	<b>7-2</b>
a. Background .....	7-2
b. High Frequency (HF) and VHF Communications .....	7-3
c. Communication and Position Reporting .....	7-3
d. Position Reports .....	7-3
e. Navigation Requirements .....	7-3
f. Use of NDB for Navigation .....	7-4
<b>3. International Operations .....</b>	<b>7-4</b>
a. Operations to Mexico .....	7-4
b. Operations to Cuba .....	7-5
<b>4. Military and Helicopter Operations .....</b>	<b>7-5</b>
a. Military Operations Areas (MOA) .....	7-5
b. Helicopter Operations .....	7-5

### CHAPTER 8 LONG-RANGE NAVIGATION

<b>1. General Navigation Concepts, FAA Policies and Guidance .....</b>	<b>8-1</b>
a. General Concepts .....	8-1
b. Separation of Air Traffic .....	8-1

## TABLE OF CONTENTS—Continued

	<i>Page</i>
c. VFR Flight .....	8-1
d. The Concept of an ATC Clearance .....	8-1
e. Concept of Navigation Performance .....	8-2
f. Degree of Accuracy Required .....	8-2
g. FAR Part 91 Communication Equipment Requirements .....	8-3
h. FAR Part 121 Communication Equipment Requirements .....	8-3
i. FAR Part 135 Communication Equipment Requirements .....	8-3
j. Communication Equipment Requirements for Ferry Flights .....	8-3
k. Concept of Operational Service Volume .....	8-3
l. Categories of Navigational Operations .....	8-4
m. Class I Navigation .....	8-4
n. Class II Navigation .....	8-5
<b>2. Long-Range Navigation Procedures and Collision Avoidance .....</b>	<b>8-6</b>
a. Background .....	8-6
b. Weather .....	8-7
c. Notices to Airmen (NOTAM) .....	8-7
d. Waypoint Symbology .....	8-7
e. Plotting Procedures .....	8-7
f. Flight Planning .....	8-8
g. Navigation Preflight (at aircraft) .....	8-8
h. Equipment Preflight .....	8-9
i. Pretakeoff and Coast Out .....	8-9
j. Within Range of the Outbound Gateway .....	8-10
k. After Passing the Gateway .....	8-11
l. Approaching Waypoint .....	8-11
m. After Passing Each Waypoint .....	8-11
n. Approaching the Inbound Gateway .....	8-11
o. After Arrival .....	8-11
<b>3. Long-Range Navigation Problems and Recommended Actions .....</b>	<b>8-11</b>
a. Background .....	8-11
b. Navigation Errors .....	8-12
c. Detection of System Failure .....	8-12
d. Detection of System Degradation or Malfunction .....	8-13
e. Recommended Actions Following System Failure .....	8-13
f. Recommended Action Following a Divergence Between Systems .....	8-14
<b>4. Proving Test and Validation Flights .....</b>	<b>8-14</b>
a. Introduction .....	8-14
b. Validation Flights .....	8-14
c. Carriage of Revenue Passengers on Validation Flights .....	8-15
d. Special Areas of Operation .....	8-15

## TABLE OF CONTENTS—Continued

	<i>Page</i>
e. Special Navigation Procedures .....	8-15
f. Other Situations Requiring Validation Flights .....	8-16
<b>5. Doppler Navigation - Special Procedures .....</b>	<b>8-16</b>
a. Compass Accuracy .....	8-16
b. Preflight .....	8-16
c. When Approaching the Outbound Gateway .....	8-16
d. Updating the Doppler Computer .....	8-16
<b>6. INS Navigation - Special Practices and Procedures .....</b>	<b>8-17</b>
a. Preflight .....	8-17
b. In-Flight Updating .....	8-17
<b>7. Omega Information .....</b>	<b>8-17</b>
a. Background .....	8-18
b. Airworthiness Approval .....	8-18
c. Operational Approval .....	8-18
d. Ground Evaluation .....	8-19
e. Evaluation and Final Approval .....	8-20
f. Minimum Functions Necessary When Used for Position Fixing and Sole Means of Navigation .....	8-20
g. System Displays .....	8-21
h. Failure Protection .....	8-21
i. Environmental Conditions .....	8-21
j. Antenna Performance .....	8-22
k. Dynamic Responses .....	8-22
l. Preflight Test .....	8-22
m. Aircraft Electrical Power Source .....	8-22
n. Steering Outputs .....	8-22
o. Airplane Flight Manual .....	8-22
p. Demonstration of Performance .....	8-22
q. Equipment and Equipment Installation .....	8-22
r. Omega Training Programs .....	8-22
s. Accuracy and Reliability .....	8-23
t. Special Practices and Procedures .....	8-24
u. Omega Lanes Formed by Hyperbolic Isophase Contours .....	8-25
v. Lane Ambiguity .....	8-27
w. Omega Navigation System Center .....	8-29
x. Aviation Use of Omega .....	8-29
y. Navigation Errors by Omega Equipped Aircraft .....	8-30
<b>8. Global Positioning Systems (GPS) .....</b>	<b>8-32</b>
a. GPS Navigation .....	8-32
b. System Operation .....	8-32

## TABLE OF CONTENTS—Continued

	<i>Page</i>
c. Selective Availability (SA) .....	8-33
d. Portable Units .....	8-33
e. Navigation Classes .....	8-33
f. RAIM .....	8-34
g. Supplemental Air Navigation System .....	8-34
h. System Availability .....	8-34
<b>9. FAA Approval of GPS Equipment .....</b>	<b>8-34</b>
a. GPS Equipment Classes .....	8-34
b. Approval Criteria .....	8-35
c. Avionics .....	8-35
d. Initial Installations and Continued Airworthiness .....	8-35
<b>10. GPS Operations Specifications .....</b>	<b>8-36</b>

### CHAPTER 9 HELICOPTER OCEANIC OPERATIONS

<b>1. Gulf of Mexico .....</b>	<b>9-1</b>
a. Background .....	9-1
b. Flight in Environmentally Sensitive Areas .....	9-1
<b>2. IFR Offshore Operations .....</b>	<b>9-1</b>
a. General .....	9-1
b. Offshore Operators .....	9-1
c. FAA Coordination .....	9-1
d. Navigation Requirements and Procedures .....	9-2
e. Weather Reporting Requirements .....	9-2
f. Helicopter En Route Descent Areas (HEDA) .....	9-2
g. HEDA Procedures and Requirements .....	9-3
<b>3. Offshore Instrument Approach Procedures .....</b>	<b>9-8</b>
a. General .....	9-8
b. Approach Approval Procedures .....	9-8

### CHAPTER 10 CREW TRAINING FOR OCEANIC OPERATIONS

<b>1. Crew Qualifications .....</b>	<b>10-1</b>
a. Background .....	10-1
b. Pilot as PIC .....	10-1
<b>2. Training Considerations .....</b>	<b>10-2</b>

### CHAPTER 11 GENERAL AVIATION SHORT-RANGE AIRCRAFT OCEANIC OPERATIONS

<b>1. Introduction .....</b>	<b>11-1</b>
------------------------------	-------------

## TABLE OF CONTENTS—Continued

	<i>Page</i>
<b>2. ICAO Guidance .....</b>	<b>11-1</b>
a. The NAT Environment .....	11-1
b. Pilot Qualification Requirements .....	11-2
c. National Regulations .....	11-2
d. Flight Rules Over the High Seas .....	11-2
e. Operation of Aircraft .....	11-3
f. Equipment Requirements .....	11-4
g. Navigation Equipment .....	11-4
h. Communication Equipment .....	11-4
i. Special Requirements for Flights Transiting Greenland .....	11-4
j. Special Requirements for Flights Transiting Iceland .....	11-5
k. Special Requirements for Canadian Departures .....	11-5
l. Additional Notes .....	11-12
m. Flight Plans .....	11-12
n. Additional Canadian Inspection Notes .....	11-12
o. Canadian Customs Procedures .....	11-12
<b>3. Other Considerations .....</b>	<b>11-13</b>
a. Personal Physical Needs .....	11-13
b. The Aircraft .....	11-13
c. Equipment .....	11-13
d. Charts .....	11-13
e. Weather .....	11-14

### CHAPTER 12 POLAR FLIGHTS

### CHAPTER 13 OCEANIC OPERATIONS TO THE FORMER SOVIET UNION AND OTHER SOVIET BLOC NATIONS

<b>1. Introduction .....</b>	<b>13-1</b>
<b>2. General .....</b>	<b>13-1</b>
a. Overview of Regional Differences in the IS .....	13-1
b. International Airports and Airways .....	13-1
c. Domestic Airports and Airways .....	13-1
d. General Navigational Considerations .....	13-1
e. AIP .....	13-2
f. ATC Communications .....	13-2
g. Aeronautical Fixed Telecommunications Network (AFTN) or Society Internationale de Telecommunications Aeronautique (SITA) Networks .....	13-2
h. Telephone Service .....	13-2
i. Navigation .....	13-3
j. Alternate Airports .....	13-3

## TABLE OF CONTENTS—Continued

	Page
k. Extended-Range Operations with Two-Engine Airplanes (ETOPS) .....	13-3
l. IS Local Navigator Assistance .....	13-3
m. Area of Magnetic Unreliability .....	13-4
n. Aeronautical Weather Data and NOTAM's .....	13-4
o. Terminal IAP's .....	13-4
p. Air Carrier Training Programs .....	13-5
q. Flight Approval .....	13-5
r. Validation Flight Requirements .....	13-6
3. Operations to the Former Republic of Yugoslavia .....	13-7

### APPENDIX 1 SAMPLES OF FORMS AND TABLES USED IN OCEANIC OPERATIONS

Figure 1-1. International Civil Aviation Organization (ICAO) Flight Plan	Appendix 1-1
Figure 1-2. International Flight Plan, FAA Form 7233-4 .....	Appendix 1-2
Figure 1-3. Navigation Performance Data .....	Appendix 1-3
Figure 1-4. Omega Information .....	Appendix 1-4
Figure 1-5. NOTAM Offices (NOF) that exchange NOTAM's With the United States .....	Appendix 1-5
Figure 1-6. Distance Conversions .....	Appendix 1-6
Figure 1-7. ICAO Terminal Forecast (TAF) .....	Appendix 1-7
Figure 1-8. Visibility Conversion, TAF Code to Miles .....	Appendix 1-11
Figure 1-9. TAF Weather Codes .....	Appendix 1-12
Figure 1-10. TAF Cloud Code .....	Appendix 1-17
Figure 1-11. TAF Icing & Turbulence .....	Appendix 1-18
Figure 1-12. Conversion of Altimeter Setting Inches of Mercury - Millibars .....	Appendix 1-19
Figure 1-13. Hectopascals (or Millibars) to Inches of Mercury .....	Appendix 1-22
Figure 1-14. Jet Fuel Conversion .....	Appendix 1-24
Figure 1-15. Volume Conversion .....	Appendix 1-25
Figure 1-16. Length Conversions .....	Appendix 1-26
Figure 1-17. Local Time Chart .....	Appendix 1-27
Figure 1-18. Radio Propagation Forecast Chart .....	Appendix 1-28
Figure 1-19. Speed, Temperature, and Weight Conversions .....	Appendix 1-31
Figure 1-20. Volume and Weight of Aviation Fuel and Oil Conversion .....	Appendix 1-32

### APPENDIX 2 CHARTS

Figure 2-1. Polar High Altitude En Route Chart .....	Appendix 2-1
Figure 2-2. Canadian East Coast Chain - 5930 Loran-C Coverage .....	Appendix 2-2
Figure 2-3. Labrador Sea Chain - 7930 Loran-C Coverage .....	Appendix 2-3
Figure 2-4. Icelandic Chain - 9980 Loran-C Coverage .....	Appendix 2-4
Figure 2-5. Norwegian Sea Chain - 7970 Loran-C Coverage .....	Appendix 2-5
